Website Privacy and Security Notice

The Richmond Map Facility website is provided as a public service by the Defense Supply Center Richmond (DSCR).

Information presented is considered public information and may be distributed or copied unless otherwise specified. Use of appropriate byline/photo/image credits is requested.

For site management, non-personally identifying information is collected for statistical purposes only. This government computer system uses software programs to create summary statistics, which are used for such purposes as assessing what information is of most and least interest, determining technical design specifications, and identifying system performance or problem areas.

Personally-identifying information (Information, including, but not limited to, name, e-mail or postal address, or telephone number, that can be used to identify an individual) voluntarily provided and collected directly from an individual, including such sources as opinions and feedback forms, will be retained to the extent that the information is relevant and necessary to accomplish the website's stated purpose or as required by Federal statute or Executive Order.

For site security purposes and to ensure that this service remains available to all users, this government computer system employs software programs to monitor network traffic to identify unauthorized attempts to upload or change information, or otherwise cause damage.

Except for authorized law enforcement investigations and national security purposes, no other attempts are made to identify individual users or their usage habits. Raw data logs are used for no other purposes and are scheduled for regular destruction in accordance with National Archives and Records Administration General Records Schedule 20.

Unauthorized attempts to upload information or change information on this service are strictly prohibited and may be punishable under the Computer Fraud and Abuse Act of 1986 and the National Information Infrastructure Protection Act of 1996.

Information Collected for Statistical Purposes

Host Name (or IP address) - the host name (or IP address) is associated with a requestor. Depending on the requester's method of network connection, the host name (or IP address) may or may not identify a specific computer. Connections via many Internet Service Providers assign different IP addresses for each session. The host name (or IP address) will identify a specific computer if that computer has a fixed IP address.

Date and Time – refers to the date and time of the request.

Referring Site - refers to the last site a person visited, which indicates how people find this website.

Browser Software - identifies the type of browser software used to access the page, which indicates what design parameters to use in constructing pages.
